About Emanuel

Passionate developer and designer with 5+ years of experience creating digital solutions that combine beautiful design with robust functionality.

My Journey

My passion for technology began in college when I first discovered the power of code to solve real-world problems. What started as curiosity quickly evolved into a deep commitment to creating meaningful digital experiences.
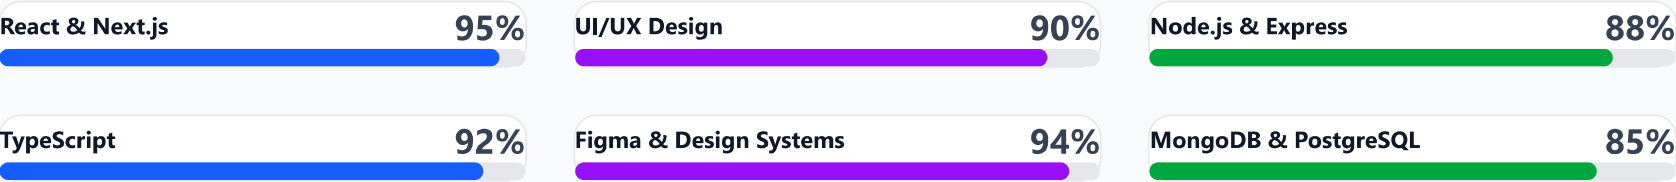

Over the years, I've had the privilege of working with startups and established companies, helping them bring their visions to life through thoughtful design and robust development. Each project has taught me something new and reinforced my belief in the transformative power of good design.

Today, I focus on creating solutions that not only look great but also provide genuine value to users. I believe the best products are those that seamlessly blend form and function, making complex tasks feel simple and intuitive.

Professional Portrait

Skills & Expertise

Technologies and tools I use to bring ideas to life

| React & Next.js | 95% | UI/UX Design | 90% | Node.js & Express | 88% |
| TypeScript | 92% | Figma & Design Systems | 94% | MongoDB & PostgreSQL | 85% |

Experience Timeline

Key milestones in my professional journey

2024 - Present

Senior Full-Stack Developer

TechStart Solutions

Leading development of enterprise web applications using React, Node.js, and cloud technologies. Mentoring junior developers and establishing coding standards.

2022 - 2024
Frontend Developer & UI Designer
Creative Digital Agency

Developed responsive web applications and created design systems for multiple clients. Collaborated with cross-functional teams to deliver exceptional user experiences.

2020 - 2022
Junior Web Developer
StartupLab Inc.

Built and maintained web applications using modern JavaScript frameworks. Contributed to the development of the company's main product from MVP to production.

2019 - 2020
Freelance Developer
Self-Employed

Provided web development services to local businesses and startups. Specialized in creating custom WordPress themes and small business websites.

Education & Certifications
Academic background and professional development

Bachelor of Computer Science
University of Technology
2015 - 2019
Focused on software engineering, web development, and human-computer interaction. Graduated Magna Cum Laude with a specialization in full-stack development.

AWS Certified Developer
Amazon Web Services
2023
Certified in designing, developing, and deploying cloud-based solutions using AWS. Demonstrates expertise in serverless architectures and cloud best practices.

Google UX Design Certificate
Google Career Certificates
2022

Advanced React Certification
Meta Professional Certificates
2023

Comprehensive program covering user experience design principles, research methods, and prototyping. Completed hands-on projects in Figma and user testing.

Advanced training in React ecosystem including hooks, context, performance optimization, and testing. Hands-on experience with real-world application development.
